PhD Course Teaching Guidelines
CILT Program
(adopted 10.14.16; v1.1 posted 12.16)

ELIGIBILITY

• Enrolled in CILT PhD Program\(^1\)
• Earned Master’s degree
• Undergraduate course (e.g., EPSY 3010 or related UG course as determined appropriate by PI and major advisor)
• Master’s level courses (with approval).

PROCESS

Apprentice Level 1 (course credit)

Apprentice by taking the CILT practicum in college teaching focused on the specific course you will be teaching (e.g., EPSY 3010) or apprentice with a CILT faculty member who is teaching the target course (e.g. EPSY 3010). *Note: The practicum in college teaching will be offered fall semester (contingent on need and demand).*

Develop and receive approval of: course syllabus and instructional plan (e.g., assignments, grades, procedures).

Apprentice Level 2 (course credit)

Teach, under the supervision of Major advisor, a small (e.g., n=20) online or face-to-face version of the course.

Obtain positive teaching evaluations (e.g., M > 3.9 on Q14) and endorsement of advisor.

Adjunct Level (w/ pay).

Maintain positive teaching evaluations and continued endorsement of advisor

\(^1\) *Note: PhD students, outside of the CILT program, who are working with CILT faculty may request (with approval of their major advisor) to participate in this process.*
